PRECIPITATION

Monthly Total
Measured in Inches

STREAMFLOWS

Monthly Average - CFS
(Provisional - Subject to Revision)

 Current monthly total
 Long term average

 Highest monthly mean discharge
 Lowest monthly mean discharge
 Current monthly mean discharge
 Median monthly mean discharge

GROUND-WATER LEVELS

ARTESIAN WELLS (Confined)

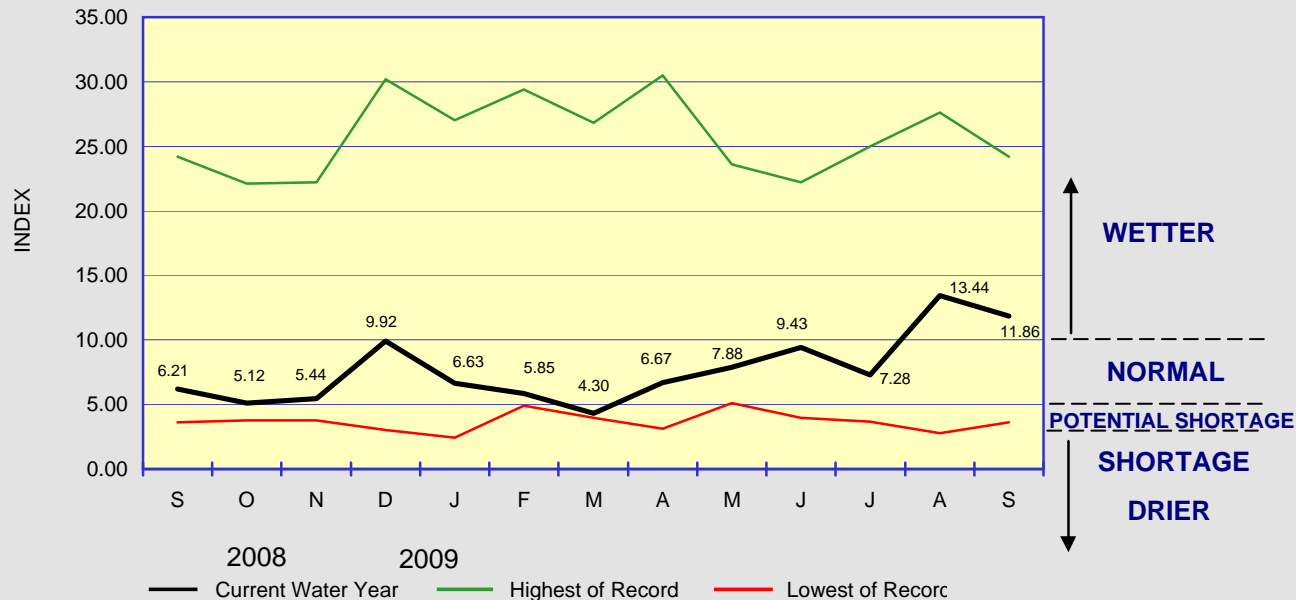

WATER-TABLE WELLS (Unconfined)

WATER CONDITIONS INDEX FOR NEW CASTLE COUNTY

The Water Conditions Index declined slightly but remained in the Wetter range during the month of September. Above normal flows occurred on streams in all three counties due to precipitation recorded at the high end of the normal range. Groundwater levels rose slightly in all three counties due to the amount of precipitation recorded in August and September.
